

EMERGENCY MANAGEMENT INSTITUTE

NATIONAL EMERGENCY TRAINING CENTER • EMMITSBURG, MD 21727

FEMA

Course: *VTTX: Virtual Tabletop Exercise Series – Flood Focus (V-0007)*

Exercise Date & Location:

March 24, 25 and 26, 2015 Virtual Exercise – Multiple Locations

Exercise Description:

This exercise will focus on a flooding event, specifically looking at response and recovery efforts. Flooding is one of thirty five, Virtual Tabletop Exercises (VTTX) that are offered by the Emergency Management Institute (EMI). The VTTX involves key personnel discussing simulated scenarios in an informal setting, and can be used to assess plans, policies, training and procedures. Lead facilitation for the exercise will be coordinated by EMI, with local facilitation provided by the participating agency. This format will allow the common delivery of exercise materials, scenarios, modules and discussion questions among those participating in the exercise.

Benefit to the Emergency Management Community:

The VTTX is a pre-packaged set of exercise materials requiring reduced effort by participating organizations. The new/novel delivery method will allow participating communities to share real-time flood related preparation, response and recovery concerns and solutions with all participants providing a unique environment for learning lessons and sharing information.

Exercise Goal:

This virtual exercise will enable the participants to exercise their knowledge, skills, and abilities needed to effectively conduct all-hazards emergency preparedness, response and recovery. Overall goals include:

- 1.) Prepare participants for a flood affecting their community.
- 2.) Enable participants to better coordinate their response operations with counterparts from local governments, other State governments, Federal agencies, private sector organizations, and nongovernmental agencies.
- 3.) Leverage VTC technology to reach remote sites.
- 4.) Provide a virtual, experiential education environment to exercise and enhance critical response and recovery tasks.

Exercise Length:

4 Hours. Start time is 12:00 P.M. EST and end time is 4:00 P.M. EST (to accommodate multiple time zones).

Target Audience:

This VTTX is designed for a “community based” organization with representation from multiple Emergency Support Functions (ESFs), comprised of whole community stakeholders and partners involved in a flood response and recovery.

Exercise Design

This VTTX is designed to engage the participants in a no fault, hazard-specific exercise discussion. The lead facilitation will occur via VTC from the EMI campus, and will be complimented by a dedicated local agency facilitator at each VTC site.

The VTTX will be supported by an Exercise and Coordination Facilitation Guide, which will include all required logistical information (room layout, connection instructions, etc.), as well as facilitation and hot wash instructions.

TRAINING OPPORTUNITY

The VTTX will consist of:

- A hazard awareness briefing on the scenario hazard.
- Three discussion modules presented by the EMI facilitator.
- Local discussion with guided questions facilitated by an on-site facilitator.
- Brief-outs from each participating location after each module.
- Hot wash conducted at each location after the VTC has ended.

Participation Requirements:

The VTTX will be limited to 10 locations per exercise. Participants must have an appropriate site equipped with VTC capability that can access the Federal Emergency Management Agency (FEMA) VTC site (connection information will be provided by EMI). Participating locations will be responsible for local exercise logistics, and should designate an exercise coordinator to implement the logistical requirements for the exercise. In addition, the location must provide a person capable of facilitating the on-site portion of exercise. Electronic copies of the related exercise materials (Exercise and Coordination Facilitation Guide, Situation Manual, agenda, etc.) will be provided in advance by EMI. A test of your VTC system to the DHS/FEMA Video Operation Center (540) 542-2171, is required prior to exercise execution.

To Apply:

Locations interested in participating in the VTTX series should submit an email request to participate in the exercise to Douglas Kahn at douglas.kahn@fema.dhs.gov, phone (301) 447-7645. When applying, please provide a central point of contact from your organization to work all issues and your preferred date to take part. Each location will receive a logistical information and exercise materials to set up and facilitate the exercise locally.

The deadline for applying to participate in the exercise is March 13, 2015.

VTTX Program Information:
